New

Agility3
Advanced Fully Wireless Intruder Alarm System

WIRELESS INTERNAL PIR WITH INTEGRAL CAMERA

If the PIR detects movement when the Alarm is set it takes a sequence of snapshots

The Agility3 allows PIR's with Integral Cameras to be integrated into a complete alarm system which can incorporate other detection devices to provide an advanced comprehensive security system which puts you in charge.

Smartphone apps and web browser for video verification, Arm/disarm, and monitoring the system

- **Email:** Event and images notification
- **SMS:** Event notification and remote control
- **Audio:** Voice event messaging, touch-tone control with full voice menu guide, two-way audio for listen-in and speak-in

Video Verification

RISCO Group's Wireless Video Verification solution verifies alarms with a sequence of snapshots, reducing false alarm costs. When armed, the camera is automatically activated by an event and captures a sequence of images during the alarm, and sends the images to the Risco cloud server and to users via RISCO's Smartphone and Web applications. Users can also trigger images on demand via the applications to verify events and determine the most appropriate response in real-time.

Smartphone App

Homeowners can now enjoy the iRISCO Smartphone App for smart and easy control of their Agility system. The revolutionary app enables users to arm/disarm the system on-the-go, visually verify alarms by viewing images taken by their PIR Cameras, take snapshots, activate home automation devices, bypass detectors, view the system's status and history, and much more. Available for iPhone, iPad and Android.

Web Application

RISCO Group's interactive Web application enables homeowners to monitor, control and configure their Agility system from any location. In addition to all the capabilities of the Smartphone app, with the Web Application users can also configure RISCO's PIR Camera settings such as the number of images taken, image resolution, and more. The application is powered by the RISCO Cloud server.

Agility flexibility allows us to mix and match to achieve the right system for you, with or without camera PIR's

i-Wave Wireless PIR Detectors
Incorporating advanced two-way Wireless Technology Standard & Pet Versions

Wireless Remote Keypad
with LCD Display and Proximity Fob Option

External & Internal Wireless Sounders

Also Available:
Magnetic Contacts, Shock Detectors, Glass Break Detectors Gas Detectors, Panic Alarm Fobs, Outdoor Detectors Smoke Detectors, Carbon Monoxide Detectors etc.
