

# Vista VBC Range Long Range Colour/Mono LED Cameras

**Up to 50 Metre Infrared Illumination**

**Available in 2.8 to 12mm and 5mm to 50mm (Ultra Narrow Angle) versions**

## **Good Size Camera, Lens and Housing.**

(Not to be confused with miniature low cost cameras often specified with exaggerated claims but with poor performance and thus not fit for purpose for longer range applications).

**Vista is the UK's most popular brand of CCTV equipment** and can be seen in a vast number of applications across the world from retail outlets and town centres to sports stadiums and banking enterprises. The Vista range of products is continually being developed and enhanced by their UK-based design team, with a continuing focus on combining innovation with simplicity. This ensures that the market enjoys a range of products that is both powerful in design but operates with a minimum of complexity. Vista has an in-depth understanding of the market requirements and the advancing technologies.

## **Features include:**

- ◆ **IP66 Waterproof Rugged Housing.**
- ◆ **700TVL 960H**
- ◆ **True Day/Night**
- ◆ **High Resolution quality images with good colour balance.**
- ◆ **Low Light Sensitivity.**
- ◆ **Advanced Processing for better images.**
- ◆ **45 Integral Infrared LED's for Illumination of up to 80M.**
- ◆ **Smart IR to avoid glare back.**
- ◆ **Low voltage supply.**

## **Lens Options:**

- ◆ **2.8-12 mm Standard** (App. 70° to 20° horizontal viewing angle).
- ◆ **5mm to 50mm Narrow Lens Angle Version** (App. 40° to 5.5° horizontal view angle).

Whereas 960H is not 'Full HD' it provides superb images that are 25% better quality than D1 (previously the best analogue system). When used with a 960H DVR and HDMI Monitor the superb results are more than adequate for most applications while avoiding the massive image storage problems associated with full HD.
